JAI KAMAL

RUST CONVERTER

DESCRIPTION : *'Jai Kamal'* Rust Converter is a specially developed coating for surface preparation and protection. It is very essential that for a protection by painting, the rust present on the surface is removed. This process entails exhaustive surface preparation which can be avoided by application of 'Jaytex' Rust Converter. The product comes in two pack system with base and hardener.

'Jai Kamal' Rust Converter acts in two ways. When applied on a rusted surface, it converts the rust into a passive compound. It forms a thorough, uniform and tightly adhering film of 25 to 30 micron DFT. The converted rust forms a part of this film and is tightly bonded with the surface. It stops further rusting. Thus it acts as rust converter and a protective primer.

- COLOURS** : Yellowish / clear
- SOLID** : 42 + 2% by weight
- FLASH POINT** : Above 30 °C
- MIXING RATIO** : 3:1 by volume (3 part base & 1 part Hardener)
- COVERAGE** : 10-12 Sqmt. / Ltr. on a normally smooth & non absorbent surface
- RECOMMENDED DFT** : 25-30 Microns per coat
- METHOD OF APPLICATION** : Brushing, conventional spray or dip
- DRYING PROPERTIES** : Surface Dry: 3 to 4 hrs.
Hard Dry : Overnight
- THINNER** : No thinner required

'THE DECORATIVE PROTECTION THAT STANDS THE TEST OF TIME'

(Old No.70) New No 169 MS KOIL STREET, ROYAPURAM, CHENNAI-600 013, Ph 2598 1323 2595 6660

Jai Kamal Paints

MANUFACTURERS OF PAINTS & VARNISH

- USAGE** : Finds application in Engineering and heavy Industries where mild Steel is used extensively for Fabrications. In chemical industries where it can replace the conventional surface preparation method, it makes the entire process very convenient. The elimination of rust below the paint ensures long lasting protection. On reinforcement bar used in concrete structures, in auto motives to prevent corrosion and in domestic items like grills, gates etc., in place of conventional primers to improve the life expectancy of the paint.
- COMPATIBILITY** : Compatibility with all types of paints and can be over coated with Synthetic enamels, chlorinated rubber paints, polyurethane paints, epoxy paint etc.,

(THE INFORMATION IN THIS LEAFLET IS GIVEN IN GOOD FAITH, BUT WITHOUT WARRANTY)
